ONE EIGHTY®

Trading & Contracting

ABOUT US

HISTORY

Founded in 2009, ONE EIGHTY managed to become one of the leading end-to-end contracting companies in Syria providing Mixed Contracting as well as MEP contracting. The company's expertise in mechanical, electrical and plumbing (MEP) contracting spans from providing complete solutions through Design and Build, to Engineering Procurement and Construction (EPC), across the Syrian territory, as well as maintenance.

ONE EIGHTY®

Trading & Contracting

To whom it may concern

Greeting!

The Adolescent Development and Relief Agency (ADRA) is an international NGO working in Syria under a memorandum of understanding with the Syrian Arab Red Crescent since 2013 to provide humanitarian relief to the Syrian population.

This is to confirm that One Eighty Ektomachonics I.L.L.C., has completed three contracts with ADRA Syria from 2014 to the present time in the rehabilitation of damaged buildings for internally displaced individuals and the rehabilitation of a collective shelter in Rural Damascus to meet the approval minimum standards.

During ADRA's association with One Eighty, they have consistently maintained a helpful and professional attitude, meeting deadlines and contract obligations while being flexible towards the organization requirements. It has been a pleasure to work with One Eighty and I wish them every success.

Please feel free to contact me for any further information required.

Best regards,
 Mervan Waf
 Program Director
 ADRA Syria
